

GV bypass cash hope

GOULBURN REGIONAL PARTNERSHIP CHIEF EYES FEDERAL FUNDS FOR SHEPPARTON BYPASS

By Thomas Hale

It would not be unrealistic to hope for a bypass investment in today's Federal Budget, says Shepparton Regional Partnership Chief Executive Officer (CEO) Dr. Mark McKenna. He says the Federal Member for Shepparton, Dr. Anthony Albanese, is likely to be a strong advocate for a Federal Government bypass investment in the region.

The project was valued at a peak value of \$1.2 billion, says McKenna. He says the project is a high-priority item for the Federal Government and is likely to be a strong advocate for a Federal Government bypass investment in the region.

Dr. McKenna says, following a year of final preparatory work, some funding is likely to be secured for the project. He says the project is a high-priority item for the Federal Government and is likely to be a strong advocate for a Federal Government bypass investment in the region.

The goal of the bypass is to allow for a more direct route from Shepparton to Melbourne, bypassing the current route through the Victorian Alps. The project is a high-priority item for the Federal Government and is likely to be a strong advocate for a Federal Government bypass investment in the region.

Dr. McKenna says, following a year of final preparatory work, some funding is likely to be secured for the project. He says the project is a high-priority item for the Federal Government and is likely to be a strong advocate for a Federal Government bypass investment in the region.

Delivering funds to vital service

A high tea with five English citizens will help to fund the vital service of the elderly in the Goulburn Valley. The event is being held at the Goulburn Valley RSL Club on Saturday, May 26, at 2.30pm. The event is being held to raise funds for the Goulburn Valley Elderly Citizens' Centre, which provides vital services to the elderly in the region.

The support services' head practitioner, Ms. Jane Smith, says the event is a vital source of funding for the centre. She says the centre provides a range of services, including meals, transport, and social activities, to help the elderly live independently and safely.
