

Caroline Chisholm Society Strategy and Plan: 2018 – 2020

Inspired by Caroline Chisholm, we support pregnancy, children and families. We were established in 1969 so that women can be supported to continue their pregnancies. The organisation has grown into a professional agency of social and community services for expectant and new mothers and families.

Our strategy is to grow into three sustainable locally embedded sites in Moonee Valley, Caroline Springs and Goulburn Valley by 2030. Our plan is for staff and volunteers to focus on effective services delivered by skilled volunteers and staff, strong finances from a diverse range of sources and sound governance of the organisation and its service provision. Our plan outlines tasks that will ensure we have progressed towards our goal of being 'bigger but not too big' by 2025.

The organisation is clearly focussed on supporting women with their pregnancy and early parenting to create a safe and nurturing environment for infants and young children. In doing so, we work with the whole family to support secure attachment and prevent and alleviate the impacts of poverty, homelessness, family violence and issues with mental health.

Effective Services

By 2025, the families supported by the Caroline Chisholm Society will be more able to keep children safe and healthy. Parents, families and communities will increase in confidence as a result of our support. We will do this by providing quality family and pregnancy support, with authoritative leadership in social and community work locally and by influencing policy nationally. We will also do this by locating our services closer to our clients. We will know we are on track if we are a free of charge, reliable and well-known service provider in Victoria, we are a quality service provider in the Goulburn Valley, and evidence-based evaluation illustrates our success.

Strong Finances and Administration

By 2025, the finances of the Caroline Chisholm Society will include regular funding from diverse sources and its administration will assure seamless client experiences. We will continue to ensure that the Society is in a financial and administrative position able to support its services. We will do this by fostering our relationship with government, corporate sponsors and philanthropists, and by growing our private fundraising income. We will also do this by ensuring our documents and policies are consistent and simple to access. We will know if we are on track if we have secure ongoing financial support from government, members and the community. We will also know if we are on track if our documents are easily navigated and accessible from any internet-connected computer.

Sound Governance and Management

By 2025, the Caroline Chisholm Society will be a model Community Service Organisation. We will do this by regularly updating and implementing policies and procedures that are informed by best practice. We will know we are on track if membership, staffing and volunteering is strong and engaged, our community knows what we do, our regulators are satisfied and our clients are engaged in our decision-making.
